

## **Save The Date! The 23rd International Conference on Plant Growth Substances**

Contributed by aneely on Oct 03, 2018 - 02:13 PM

The 23rd International Conference on Plant Growth Substances will take place on Jun 25-29 2019 at the Université Paris-Descartes in Paris, France. The International Plant Growth Substances Association (IPGSA) Conference welcomes researchers, academics and students from university and industry interested in the hormones, growth substances and signaling processes of plants. Visit [www.ipgsa2019.com](http://www.ipgsa2019.com) for more information.

The International Plant Growth Substances Association (IPGSA) Conference welcomes researchers, academics and students from university and industry interested in the hormones, growth substances and signaling processes of plants. Held once every three years, the IPGSA conference has long provided a stimulating platform for scientists to share and discuss their latest research. The scientific advisory committee is formed of leading scientists appointed by IPGSA Council members elected from diverse countries and therefore promises to deliver an exciting program. We welcome you to the heart of Paris, and to a University venue which will ensure a rewarding experience to all.

Visit [www.ipgsa2019.com](http://www.ipgsa2019.com) for more information.
